Xizhi Live Performance

汐止 (潮汐所止)

Where the tide stop

Xizhi is a little town in north east of Taipei. In past, people gave this name after a big tide, increased by summer rains, reach this town distant from the coast.

Xizhi it's also the place where has been born our child, this august, during the super typhon days.

To be a bowl player,
no matter how tones like that,
all for prepare to arrive the "silent land"
to feel a strong and deep implosion.

C.Yun

The sound performance, dedicated to this event, will mix acoustic sounds of singing bowl, beans, leaves and computer synthetizer.
