

Escalofrio 2

Live Performance

HD video movie. 10minutes.

Topic: Art

Artists:

Yoshiyuki Abe

Japan, Artist
and

Igor Czerniawski

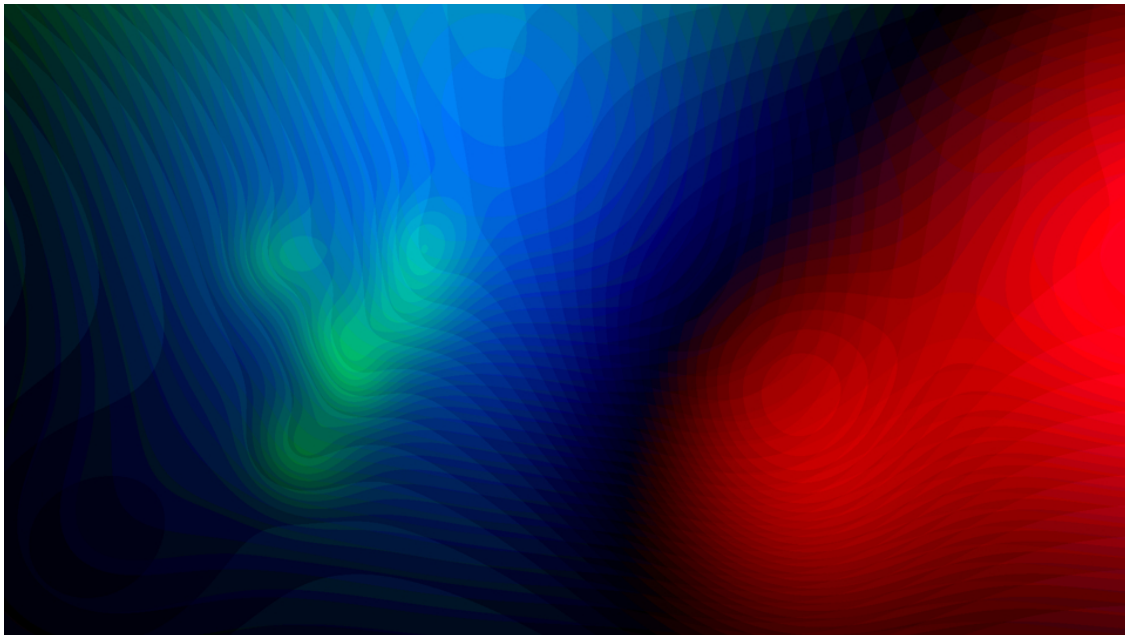

Poland, Composer

Abstract

A collaboration. Czerniawski produced a tonal noise music *Escalofrio* and Abe developed an imaging program for the music.

Sound based on *tonal noise* music conception which I've been working at for more than thirty years. Tonal noises, scratches came from the silence and go to the silence are the main sound sources for the composition. (Czerniawski)

Light source positions are moving in the 3d space and changing color attributes as well. The program generated pixel data on the screen and the moving algorithm worked for making them up rationale. These are important elements for producing abstract movie should appeal to the audience's senses directly. (Abe)
